MediClear-SGS™

Vanilla Flavored

Advanced detoxification cofactors plus antioxidants for phase II liver support.\* MediClear-SGS features key plant phytosome complexes with phytosome nutrient-to-cell delivery technology for superior absorption.\*

Vegan protein
Vitamins & minerals
Glutathione

SGS

Green tea phytosome Curcumin phytosome

# Sulforaphane glucosinolate and enhanced liver support\*

MediClear-SGS contains sulforaphane glucosinolate (SGS), a compound from broccoli seeds and sprouts that up-regulates phase II detoxification enzymes in the liver for enhanced support.\* SGS also provides long-lasting cellular protection from free-radical damage that lasts even days after being consumed.\*

Each serving of MediClear-SGS contains 30 mg of sulforaphane glucosinolate – equal to eating 1.2 lbs of broccoli. MediClear-SGS is designed for elimination diets and can be used with the 10-day or 3-week detox protocol. The formula contains:

- / 21 servings per container (2 containers needed for 3-week program)
- / Milk thistle extract for added liver support\*
- / Vitamin E as mixed tocopherols
- / Well-absorbed Albion mineral chelates
- Curcumin, green tea, and grape seed extracts, all complexed with phospholipids for enhanced absorption
- / Enhanced with sulforaphane glucosinolate (SGS) for extended antioxidant support and enhanced phase II liver support\*
- / Additional antioxidant and detox support from glutathione\*

## Why rice and pea protein?

The combination of rice and pea proteins is used because of their low incidence of allergenicity. It is far more likely for dairy and soy protein to initiate an allergic reaction. Using rice and pea proteins eliminates most allergenic proteins from the diet, yet maintains high-quality protein intake.

## Key plant phytosomes

- / Meriva®: A curcumin phytosome with superior bioavailability when compared to ordinary curcumin extracts
- / Leucoselect® phytosome: A unique grape seed phytosome with better absorption
- Greenselect® phytosome: A decaffeinated green tea phytosome with similarly increased bioavailability

#### **SUPPLEMENT FACTS**

Serving Size: Two Scoops (46.6 g) Servings Per Container: 21

Two Scoops (46.6 g) Contain:		%DV
Calories	190

# Other Ingredients

Evaporated Cane Juice Sugar, Vanilla Flavor, Silicon Dioxide, Stevia extract (leaf).

Contains ingredient derived from soy (Grape Seed Phytosome).

#### Suggested Use

For adults and children 12 or more years of age. Mix one serving (two scoops) with at least 10 ounces of cold water, juice, rice milk, or nut milk or as recommended by your health-care practitioner.

If pregnant, consult your health-care practitioner before using this product.
